

LifeLinkGPS™ Personal Guardian

by American Burglar Alarms

LONE WORKER / PERSONAL SAFETY

Have a peace of mind while in a challenging environment or after-hours. If you feel unsafe or become engaged in an emergency situation, use LifeLinkGPS to transmit your location and panic-alert to a 24-hour monitoring center for help.

REALTORS

Showing property late at night? Wouldn't it be nice to know a trained 24-hour operator is on stand-by that can immediately dispatch the appropriate authorities to your location if needed? Now you can with LifeLinkGPS!

FACULTY & STUDENTS

The world is an increasingly dangerous place just walking to your car at night. LifeLinkGPS can immediately alert the appropriate authorities of an imminent threat while communicating your current location.

- Duress / Panic Button anytime, anywhere.
- Like OnStar*, but mobile with advanced GPS.
- “Always-on” Protection.
- Two-way Voice Assistance.

The LifeLinkGPS Personal Guardian is a state-of-art portable GPS tracking beacon that is used for personal safety. The LifeLinkGPS Personal Guardian sends an event to a 24-hour monitoring center when the “call button” is pressed. The monitoring center immediately acquires the location and then establishes a two-way voice conversation to assist you. If the operator determines that the situation is an emergency, the appropriate parties are notified immediately.

How does it work?
